Tech Wise Solutions /// Product Portfolio

Acronis

All-in-One Cyber Protection

Business/Consumer

Acronis is a leading provider of cyber protection solutions, offering innovative products and services for data backup, recovery, and security. Its advanced technologies and user-friendly interfaces ensure the safety and accessibility of data across platforms. Acronis is trusted by businesses and individuals alike for its reliable data protection capabilities against cyber threats, hardware failures, and natural disasters.

Bitdefender®

Cybersecurity Software

Business/Consumer

Bitdefender is a leading cybersecurity company offering advanced antivirus and internet security solutions. With cutting-edge technologies and user-friendly interfaces, it provides reliable protection against malware, viruses, and cyber threats. Trusted by millions, Bitdefender is known for its robust security and continuous innovation.

SENDMARC

Email Security Services

Sendmarc is a trusted provider of email authentication and security solutions. It offers advanced tools and services that help organizations protect their email domains from phishing, spoofing, and other email-related attacks. Sendmarc enables businesses to implement domain-based message authentication, reporting, and conformance (DMARC) protocols to enhance email deliverability and prevent unauthorized use of their domains.

Professional Services

Our skilled technicians will gladly assist our valued clients with all technical needs, from installation to troubleshooting following the implementation.

Trustwave®

Cyber Protection

Trustwave is a leader in managed detection and response (MDR), managed security services (MSS), consulting and professional services, database security and email security.

ZECURION

Data Loss Prevention

Zecurion is a renowned cybersecurity company that specializes in data loss prevention (DLP) solutions. It offers advanced software and services to help organizations protect sensitive information and prevent data leaks. Zecurion's comprehensive DLP solutions provide monitoring, analysis, and control of data across various channels, including endpoints, networks, and the cloud.

In addition to our tier-one technical support for Acronis, Bitdefender, Sendmarc & Zecurion, we offer these professional services!
